7. HEALTH INFORMATION / ISSUES

Does anyone in the home have allergies? (details)
Does anyone in the home have asthma? (details)

Does anyone in the home have a disability or special needs we should know about? (details)			
The following questions are asked so that the prospective adopter fully realizes what the cost and maintenance would be to have a dog in their home. Many prospective adopters are surprised at the cost of food, medical expenses, and grooming that are necessary to keep a dog in good health. Please answer these questions to the best of your ability.			
Please estimate the amount you think it will cost yearly for the following:	Food	\$	
	Grooming	\$	
	Vet Care	\$	

Important information. All prospective owners must read and sign the following:

These dogs are in a rescue group because for one reason or another previous owners no longer could or wished to care for them. The main purpose of The Chance Foundation is to find responsible and reliable homes for all dogs placed in their care. Adopting a dog is a very important decision and one that not only affects your family, but the dog you decide to adopt. Millions of dogs are euthanized each year because people do not seriously consider the care and maintenance of animals. Time and attention are major factors that need to be considered when taking a dog into your home. Medical expenses can be costly. All the dogs in The Chance Foundation have been previously taken to a vet for an examination. Basic shots are given, and spaying/neutering if necessary. If there are extenuating medical factors involved, all will be noted in the contract upon signing. It is the responsibility of the new owner to provide additional and maintenance vaccinations if/as necessary, and any preventative care required such as grooming, teeth cleaning, nail trimming, flea and heartworm preventative.

In addition it is the responsibility of the owner to provide the necessary training/reinforcement to integrate their new dog into their home. If behavior problem arises, the owner agrees to contact The Chance Foundation to discuss further training. The owner may also hire a trainer or enter the dog into a training program that is not affiliated with The Chance Foundation, but must keep The Chance Foundation apprised of the animals progress. The Chance Foundation also Reserves the Rights to perform home inspections even after the dog is adopted.

By signing, you agree to have read and understood the above information. If you have any questions please feel free to contact us. We will be more than happy to help you.
